To Executive Councils and District Directors

Materials for Convention Committee on Awards

Dear Friends:

Here is the "preliminary screening" material that Roger and I annually prepare for the Convention Committee on Awards. The data are taken from the Chapter Surveys and from chapter reports to headquarters.

The letters of information, instructions, and recommendations are being sent to the Awards Committee now, and the work of that committee is confidential. You should keep this information confidential because nobody else should know before the Friday meals and the Saturday Awards Banquet which chapters are being suggested for prizes and which ones will receive Secretary's Commendations and Chapter Project Awards.

Sarath Krishnaswamy, Joseph J. Hanby, Joseph G. Macro, Michael D. Malmstrom, Lisa C. Pawlak, and Edward L. Tezak are the national officer advisor and consultants to the Awards Committee; they must coach the spokesperson for presentation of the R.H. Nagel/R.C. Matthews awards at the closing banquet. This group will have an enormous amount of work to do in a very short time.

Some of the delegates appointed to this committee are those from chapters that have no chance of winning any prizes, but many delegates are from chapters which just missed winning a major award this year and/or which have the potential to win one next year. The objective is to let both the "less active" chapters and the "just missed" see what excellent chapters do.

Sincerely,

Jim
